- To be enrolled in Practicum and Internship courses, a clinical site must be secured by the end of the second week of the term. If students have not secured a clinical site by this time, they are unlikely to be successful in completing the course requirements. To avoid financial penalty, and receive the 100% tuition refund, students must withdraw from the Internship or co-requisite Practicum and Seminar courses by the drop date for that specific term. Otherwise students could be subject to administrative withdrawal and/or subject to failure of the courses for inability to meet course requirements.
