* Please note: An APRN serving as a preceptor must have earned a master's degree or higher. Persons with a Certified Professional Midwife (CPM), Licensed Midwife (LM), or Certified Midwife (CM) credential cannot serve as a preceptor.

- Acceptable Volunteer Clinical Faculty and acceptable practicum sites cannot be perceived to have a conflict of interest as relates to evaluation of the student. For example, acceptable Volunteer Clinical Faculty cannot be related to the student. A Volunteer Clinical Faculty who works in the same department as the student must be approved by the program director. Please note that this situation is generally discouraged. It is at the discretion of the program director which practicum sites and Volunteer Clinical Faculty are appropriate for clinical courses.
- It is acceptable to have more than one preceptor for each clinical course.
- To be enrolled in Practicum and Internship courses, a clinical site must be secured by the end of the second week of the term. If students have not secured a clinical site by this time, they are unlikely to be successful in completing the course requirements. To avoid financial penalty, and receive the 100% tuition refund, students must withdraw from the Internship or co-requisite Practicum and Seminar courses by the drop date for that specific term. Otherwise, students could be subject to administrative withdrawal and/or subject to failure of the courses for inability to meet course requirements./
